The image shows a 3D perspective view of a room layout within the DIALux 4.12 software. The room is divided into several sections by walls. Numerous yellow circular icons representing light fixtures are placed on the ceiling and floor. Blue and green lines on the floor indicate light distribution or footcandle contours. The software interface includes a menu bar at the top with options like 'Datei', 'Bearbeiten', 'Ansicht', 'CAD', 'Fagg', 'Einfügen', 'Leuchtauswahl', 'Ausgaben', 'Fenster', and 'Online'. Below the menu is a toolbar with various icons for editing and simulation. On the left side, there is a 'Hinwe' (Notes) panel and a vertical scale bar. At the bottom, a Windows taskbar is visible with icons for the Start menu, File Explorer, Microsoft Word, Internet Explorer, and Photoshop. The system tray on the right shows the date and time as 12:59 on 25.03.2015. The status bar at the bottom of the software window displays technical data: 0.00 lx, 0.00 cd/m², 85.163 m, -75.411 m, 0.000 m, UF, NUM, and RF.
